

Appendix Table 26 - School Level Pre-Trend Regressions of School Performance Score on Evacuee Shares in Louisiana - 1999-00 Through 2004-05					
	A. Overall			B. By Evacuee Quartile	
	Without Controls	With Controls		Without Controls	With Controls
	(1)	(2)		(1)	(2)
Katrina/Rita Share*2000-01	4.6 (4.8)	1.8 (5.0)	Katrina/Rita Share in Q1*2000-01	35.6 (28.9)	13.1 (26.3)
Katrina/Rita Share*2000-02	-0.5 (5.9)	-2.3 (4.9)	Katrina/Rita Share in Q1*2000-02	4.2 (25.7)	-9.4 (22.1)
Katrina/Rita Share*2002-03	-1.1 (6.3)	-3.4 (4.4)	Katrina/Rita Share in Q1*2002-03	0.6 (24.3)	-13.0 (22.1)
Katrina/Rita Share*2003-04	-5.6 (6.9)	-4.7 (5.7)	Katrina/Rita Share in Q1*2003-04	-31.8 (26.6)	-28.0 (24.5)
Katrina/Rita Share*2004-05	-10.0 (6.9)	-7.1 (6.7)	Katrina/Rita Share in Q1*2004-05	-65.0** (30.7)	-76.9*** (26.7)
Observations	4,978	4,978	Katrina/Rita Share in Q2*2000-01	24.1 (45.9)	17.9 (39.3)
			Katrina/Rita Share in Q2*2000-02	40.5 (44.0)	59.8 (39.1)
			Katrina/Rita Share in Q2*2002-03	17.2 (43.8)	42.8 (39.9)
			Katrina/Rita Share in Q2*2003-04	-9.0 (51.7)	-18.0 (47.4)
			Katrina/Rita Share in Q2*2004-05	4.0 (61.5)	16.9 (55.4)
			Katrina/Rita Share in Q3*2000-01	-7.6 (35.5)	7.8 (36.9)
			Katrina/Rita Share in Q3*2000-02	-10.0 (46.4)	-13.3 (37.5)
			Katrina/Rita Share in Q3*2002-03	-0.1 (53.6)	-25.1 (40.3)
			Katrina/Rita Share in Q3*2003-04	18.6 (59.5)	25.0 (47.2)
			Katrina/Rita Share in Q3*2004-05	-11.5 (63.4)	2.0 (53.5)
			Katrina/Rita Share in Q4*2000-01	-26.5 (25.1)	-27.8 (24.5)
			Katrina/Rita Share in Q4*2000-02	-28.0 (32.0)	-34.5 (24.9)
			Katrina/Rita Share in Q4*2002-03	-17.5 (37.3)	-9.8 (27.3)
			Katrina/Rita Share in Q4*2003-04	-2.4 (44.7)	-2.9 (33.2)
			Katrina/Rita Share in Q4*2004-05	27.4 (51.9)	22.2 (40.3)
			Observations	4,978	4,978

Robust standard errors clustered by school are provided in parentheses and clustered by school. All regressions also include school fixed-effects and year dummies. Control regressions also include % of tested students who are African-American, Hispanic, Asian, free/reduced-price lunch, and the distribution of tested students across grades in each year. School performance score (SPS) is a metric used to determine accountability ratings that includes test scores, attendance rates, dropouts, and graduation rates. See text for more details. In column (1), evacuee shares in 2005-06 and 2006-07 are matched to the same schools in 2003-04 and 2004-05, respectively so that all SPS scores in the regression are pre-Katrina. For 1999-00 through 2002-03 evacuee shares are set to zero. For column (2) the analysis is conducted one year earlier. Quartiles for evacuees in LA are within grade across the state data and determined from their most recent pre-Katrina score. Since SPS is an aggregate measure that includes both math and reading scores, evacuee shares are averaged across math and reading quartiles. *, **, and *** reflect significance at the 10%, 5%, and 1% levels, respectively.
